Features

A better checkout for your best customers.

Store payment details for your regulars. Charge them at a tap of a button to save time at checkout.

Fast remote billing

Customers far away? Skip the phone tag (and that notepad full of credit card numbers) and store their payment information safely—billing when you need to.

Store a card with a swipe.

Save payment information to a customer profile with a swipe, store it post-sale, or key it in at any time.

Your customer is in control

Receipts are automatically sent to the email address on file, and your customers can unlink their card via their receipt at any time.

Safe and secure

Square's approach to security is designed to protect both you and your customers with industry-leading standards for fraud protection.
