PayPal is an app that gives you complete access to your PayPal account right from your iOS device, so you can review transactions and make payments. You can even use this app to order food from a local restaurant or pay for your purchases at some area businesses.

food from a local restaurant or pay for your purchases at some area businesses.

PROS

Pay with your phone: The app can find businesses close to you that will accept PayPal as payment when you enter your mobile phone number and PIN at checkout. That means you can pay straight through PayPal without even opening your wallet.

Complete transactions: Whether you're just sending money to a friend to settle a lunch tab or making a significant purchase, you can do it all from this app. And you don't even have to worry about how much money you have in your PayPal account as long as you have a linked bank account. The app will just draw funds from that account to cover the transaction.

CONS

No refunds: The only real function missing from this app that you have access to through the full PayPal Web site is the Refund button. This seems like an odd omission, and it would definitely improve the app's functionality for people who use their PayPal account primarily for online business transactions.

Delivery issues: While the app conveniently comes up with a list of nearby restaurants that you can order food from and pay through the app, not all of them necessarily deliver to your area. You'll have to check that out for yourself separately.

BOTTOM LINE

If you use PayPal a lot, this is a great app to have. And even if you haven't turned to PayPal as a primary payment method, this app makes it so convenient in so many situations that it may just win you over.

Developer's Description

By eBay

Description. TAP INTO YOUR MONEY. Send money or pay online to almost anywhere in the world in just seconds. Manage all the ways you send, receive, and spend money at a glance - download the PayPal payment app today. SEND MONEY IN SECONDS. Transfer money to PayPal account holders in over 100 countries using just their email address or mobile number. When the money arrives in their account (usually in seconds), they can spend the money online or withdraw it with just a tap. And it's completely free when you send money to friends in the US from your bank account or PayPal balance. GET PAID WITH EASE. Send a request for money that allows people to pay you back with just a tap. Whether you're collecting money for a group gift or something you sold online, PayPal mobile app makes it easy for them and even easier for you. STAY ON TOP OF IT ALL. Whenever you send, receive, and spend money with PayPal, the app sends an instant notification to help you keep track of it all. Whether you use PayPal Credit, your balance, your bank, or your debit and credit cards to pay with PayPal - you can find everything and anything you need to simply manage it all in this secure payment app.
